## "Save the Child!"

That is the heartfelt cry of many a mother who sees her beloved child waste away and die by day. Sometimes it's the lack of food, sometimes it's the lack of medicine, but in all cases it's the lack of a good, reliable, and safe medicine.

It is so weak, so lacking in stamina, that there is no vantage ground of health. One of the results of the use of Dr. Pierce's Favorite Prescription preceding maternity is a strong, healthy child. Thousands of mothers testify to this. Frequently mothers write, "I was never able to raise a child before using Favorite Prescription," or "All my other children are sickly except this one, and I took your Favorite Prescription this time."

All the child's strength comes from the mother. Favorite Prescription gives the mother strength to give her child. There is no alcohol in Favorite Prescription. It contains neither opium, cocaine, nor any other narcotic. It is a purely vegetable and perfectly harmless medicine in any condition of the female system.

Accept no substitute for "Favorite Prescription." There is nothing "just as good" for women as this. \$60 women are invited to consult Dr. Pierce, by letter, free. Correspondence confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Free Dr. Pierce's Common Sense Medical Advice is sent free on receipt of stamp to pay expense of mailing only. Send in one-cent stamps for the book in cloth binding, or at one-cent stamps for new cover. Address Dr. R. V. Pierce, Buffalo, N. Y.

## PREHISTORIC RELICS.

Prof. William Nevins, of New York, the archaeologist and mining expert, who has been making explorations in remote sections of the State of Guerrero, Mexico, has just discovered ruins of some prehistoric cities covering hundreds of miles. He said: "Across the Cocula river and within five minutes' walk of the Rio Balsas there are ruins of buildings covering about one acre, the plastered walls standing over four metres high. All along the ridge of the south bank of the river, leading past Tomislahuacan, remains of houses are to be seen, most of them, however, being mere foundations. Were it not for the fragments of terra cotta that are plentifully scattered about they would hardly be noticed. At Acatlan there are numerous moneilles, or mounds, some of which had been opened by the natives, and in nearly every Indian hut heads, axes, and small idols of diorite and jade can be found. It was about half way between here and Tlacotalpa, at a place called Calabauilla, that the two diorite pedestals covered with hieroglyphics were found a couple of weeks ago. Farther west, at Oahu-tepec, hundreds of ruins are to be found on all the hills or ridges, and the ridge east and west of the Teotepetl river are covered with these remains of prehistoric dwellings.

"In many of the ruins, especially in the neighborhood of Guerrero, immense fragments of thick pottery covered with slag are scattered about. Some of this slag has been assayed and found to contain 3 to 4 per cent of copper with a little gold. This furnishes evidence that mining was one of the vocations of this race, and it is not at all unreasonable to suppose that here may have been at least one of the sources from which Motepecpoma's mineral wealth was obtained, as this is one of the most promising gold belts in the country. There are no signs of work having been done on any of the mineral veins which have been found in this section, but prehistoric mining might not have been done on an extensive scale.

"Going north along the Teotepetl river, on the higher banks of the river, prehistoric remains of buildings are visible every where, and so, particularly at Cruces, Nantitlan, and Acambaro. There has been subterranean dwellings at Limon, Hacienda Vija, Huautla, and Teocala del Rio. At Teocala there are ruins of what appears to have been a temple, with some twenty steps about four metres long leading up to it, and about a league west there is an immense flat mass of diorite about seven metres in length by three metres, covered with hieroglyphics carved in the stone. All along the Balsas, on both sides of the river, the banks and ridges have been thickly populated, particularly at Oapan, Mexico, C. Acuala, Las Justas, Cuapostepetl, C. Canatote, Pozapan, El Cuba, San Juan Tomas, San Miguel, Totolapan, San Lorenzo, Changata, and Coahuac de Latorre.

**VIRGINIAN SET FREE.**—Hunter E. Golding, of Virginia, and in whose behalf Senator Martin, of this State, has taken a warm interest, has been released from a Mexican jail. This information comes to the State department, at Washington, through United States Consul Carroll, at Monterey, Mexico.

Golding was employed as a brakeman on a Mexican railroad and was sentenced to eight years' imprisonment after conviction of complicity in the death of a Mexican, who was stealing a ride on his train, by throwing him off the car.

At a rehearing of the case it developed that Golding had nothing to do with ejecting the man from the train. The sentence of the lower court, therefore, was reversed, and the Supreme Court, to which an appeal was made, gave him his freedom.

A pathetic incident in connection with the case was the death of Golding's son while he was imprisoned. Through the intercession of a Mrs. Dodge, an American, the father was allowed to attend his boy's funeral.

**A NEW OPERATION.**—In operating on a woman suffering from tuberculosis of the hip at the University College of Medicine, in Richmond, Dr. Hugh M. Taylor on Wednesday used for the first time in the South the new method of operating by use of cocaine in the spine with great success. Fifteen drops of a four per cent solution of cocaine were injected into the spinal column, rendering the lower half of the body insensible to pain, but not touch. Incising the hip, the surgeon removed considerable dead bone and cleansed the cavity by use of pure carbolic acid, which was neutralized by later use of alcohol. A large glass drainage tube packed with gauze was inserted. Throughout the operation the woman watched the progress of the surgeon and said she experienced no pain.

Howard M. Giles, 78 years old, a member of the firm of Watson, Foster & Giles, dropped dead on an elevated train in New York this morning. Giles, who was a millionaire, lived at Orange, N. J. He remained in town last night to attend the Bryan demonstration and remained over night at the home of a friend up town. He died while on his way to business.

## James Reed Injured.

Mr. James Reed struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whisky in bathing it, but nothing gave any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, W. Va. Pain Balm is unequaled for sprains, bruises and rheumatism. For sale by all druggists.
